

VIRGINIA TRANSPORT CAPABILITY STATEMENT

Virginia Transport is a small business/HUBZone freight and fuel broker working as a prime contractor to the US Government as well as a tier 2 subcontractor with prime defense, construction and fuel contractors. Virginia Transport is responsible for the integration of all logistics support functions including planning, risk, rigging, transportation, warehousing, crating and more. Our teams experience and diligence ensure that our government and private clients alike receive the same exemplary customer service, support and professionalism. Virginia Transport has direct access to the DOD's GFM and CAS systems for bidding and security clearance access to military installations and DLA sites throughout the United States.
